

JOB DESCRIPTION

Experienced Interior Designer

Salary: Competitive salary, negotiable based on experience

Background

This is a unique opportunity for an experienced Architect to join a faith-based educational charity as an in-house designer. Greensville Trust is embarking on an ambitious multi-million pound development of a mixed use site based in Bradford, West Yorkshire. This exemplar project seeks to serve the local and wider community as a centre for learning, worship and wider social contribution.

The charity is currently recruiting for a senior interior designer, on an initial 12 month contract to assist in this exciting stage of the project's development.

Upcoming projects include the refurbishment of the existing hotel complex and various buildings into different forms of on-site accommodation, development of events and conference spaces, leisure facilities, the renovation of office spaces and the design of an on-site nursery and primary school.

Location

This role will primarily be based at the Heaton Mount site in Bradford and may involve travel to other Greensville Trust sites as and when necessary.

Qualities of the ideal candidate

This is an excellent role for a competent and experienced designer with the following qualities:

- A self-motivated creative with good design acumen.
- Delivery experience across a number of the relevant sectors namely; hospitality, residential, leisure, workplace and education.
- A deep understanding of their own philosophy towards design.
- Experiencing in sourcing, procurement and fabrication.
- Proficiency in technical design, detailing, drawings and legislative requirements.
- A passion for design, materials and construction.
- Good communication skills and the ability to work autonomously as well as alongside a team of other consultants/ designers.
- Commercial Awareness.

Principal Responsibilities

- To provide interior design services for various proposals throughout the site.
- Lead projects through various stages from design process, development and delivery.
- Working alongside and co-ordinating with other design specialists such as architects, consultants, contractors, craftsmen and fabricators.
- Preparation of design presentations, mockups, drawings and tender packages.
- Specification towards fitout, active sourcing and procurement of specified products and overseeing of installation.

How To Apply

To apply for this role, please send a portfolio demonstrating relevant project experience along with a current CV along with a covering letter detailing skills and experience in relation to the job description in no more than 1200 words, to: jobs@greensvilletrust.org.
